

COP26 VIRTUAL OCEAN PAVILION EXHIBITS

Food and Agriculture Organization of the United Nations (FAO)

Description

Discover FAO's work on climate change in fisheries and aquaculture here! The Food and Agriculture Organization (FAO) is a specialized agency of the United Nations that leads international efforts to defeat hunger. Our goal is to achieve food security for all and make sure that people have regular access to enough high-quality food to lead active healthy lives. With over 194 member states, FAO works in over 130 countries worldwide. We believe that everyone can play a part in ending hunger.
