

# COP26 VIRTUAL OCEAN PAVILION EXHIBITS

## Peace Boat

### Description

Peace Boat is a Japan-based international NGO working to promote peace, human rights, and sustainability. We have organized around 70 around-the-world voyages since our inception in 1983, visiting more than 200 ports in 80 countries. Guided by the UN Sustainable Development Goals (SDGs), Peace Boat's Global Voyages offer a unique programme of activities centered on experiential learning and intercultural communication. One of such programmes is the Ocean and Climate Youth Ambassadors Programme which brings youth leaders from SIDS on the front line of climate change and marine degradation to travel onboard Peace Boat's ship, engaging in capacity building and bringing their message to citizens and government representatives through the voyage. Ecoship is the next step in our 38-year evolution. It will be the future platform for Peace Boat's global voyages and a transition model for decarbonizing the maritime transport. Thanks to its sails, solar panels and batteries, the ship will achieve CO2 emission reductions of 40%, further encouraging active engagement with the challenges embodied in the SDGs.
